1. Does delivering value mean improving compliance adherence for a business?

1 / 1 point

- ☐ Yes. Compliance adherence is the most valuable asset for a business, regardless of what the business needs to accomplish.
- ☐ No. Value only refers to the financial benefits for a business.
- ☒ Sometimes. Value can mean different things for each business based on what they hope to accomplish.

✓ Correct

2. Which of the following are components of a typical value roadmap? Select all that apply.

1 / 1 point

☒ A product roadmap

✓ Correct

☐ A product playbook

☒ A product vision

✓ Correct

☒ A release plan

✓ Correct

☐ A mission statement

3. Fill in the blank: In a release plan, product releases happen when _____.

1 / 1 point

- ☐ the project is complete and the team has delivered the final product
- ☐ the customer has asked for the release of a given feature or requirement
- ☒ the team has developed a working version of a given feature or requirement
- ☐ the feature or requirement is in development and is being iterated upon

✓ Correct

4. What are some of the benefits of developing and maintaining a product roadmap? Select all that apply.

1 / 1 point

☒ Teams and stakeholders understand the sequence of deliverables

✓ Correct

☐ Stakeholders meet with the Product Owner less frequently throughout the project

☒ Stakeholders notice incremental value over the course of the project

✓ Correct

☐ Teams follow a reliable plan that does not need to change

☒ Teams understand how their efforts relate to the project vision

✓ Correct

5. Imagine you are a project manager for a software company. Your team plans to develop a new learning management system (LMS) for a local school district by the end of the quarter. Which of the following factors can potentially push back your release plan date? Select all that apply.

1 / 1 point

- ☐ The school district increases the project budget and provides additional resources.
- ☒ Your team realizes an epic will take more time to complete than anticipated.

✓ Correct

- ☒ The Product Owner expands the project to include two additional school districts.

✓ Correct

- ☒ A member of your development team leaves to take a new job.

✓ Correct

6. As a project manager, your organization makes a shift to Agile. To create a sense of urgency, which questions should you ask your team about what's working, and what's not working right now?

1 / 1 point

- ☒ How can we help you become more productive and supported in your work?

✓ Correct

- ☒ What allows our competitors to outperform us and get their products and features to market more quickly?

✓ Correct

- ☐ How can we change the company's stated mission or values to better align with our work?

- ☐ What can we do to cut costs in our product creation and Sprint process?

7. Imagine you are a project manager overseeing the adoption of Agile at your organization. When setting goals for the project, you consider the timeline, specific results, and reason for the change. You put this information in a document the whole team can access. Which of the three keys to influence does this scenario demonstrate?

1 / 1 point

- ☐ Leverage the six sources of influence
- ☒ Clarify measurable results
- ☐ Find vital behaviors

✓ Correct

8. Imagine you are a project manager overseeing a new set design for a local news network. You notice your team is becoming overwhelmed with critical feedback from producers. Then, your team informs you that they no longer want to receive feedback from the producers. Which Agile principle do these issues impact the most?

1 / 1 point

- ☐ Value delivery
- ☐ Retrospectives
- ☒ Business collaboration
- ☐ Team dynamics and culture

✓ Correct

9. What can you do to avoid making too many or unfounded product assumptions? Select all that apply.

1 / 1 point

- ☐ Ask the Product Owner to double-check and approve assumptions.
- ☒ Document assumptions and make them transparent to all.

✓ Correct

- ☒ Discuss assumptions as a team.

✓ Correct

☒ Conduct surveys or focus groups to double-check assumptions, where necessary.

✓ Correct

☐ Reuse assumptions from similar, past projects.

10. Which of the following scaled Agile frameworks involve Scrum Masters meeting frequently to better coordinate work on a single product across teams?

1 / 1 point

☐ Large-Scale Scrum (LeSS)

☒ Scrum of Scrums

☐ Disciplined Agile Delivery (DAD)

☐ Scaled Agile Framework (SAFe)

✓ Correct
