1.	Your team is building a website that will consist of four new pages of content. Your project plan has two team members work together to deliver one page of content: one will outline page content while the other does mockups of page layout. Then they will work together to produce the completed page. Which of the following represents a milestone in your project plan?	1/1 point
	A completed mockup of page layout	
	A completed page of content	
	A completed outline of page content	
	O A completed project plan	
	⊘ Correct	
2.	One of the tasks in your project involves setting up the stage for a talent show. Before the team can do this, you need estimates from an audiovisual contractor, and the construction crew needs to build the stage backdrop. What term refers to these preliminary needs?	1/1 point
	O Vendors	
	Task dependencies	
	O Milestones	
	O Project scope	
	⊘ Correct	
3.	You start a new job as a project manager in an industry that is unfamiliar to you. Which of the following are examples of domain knowledge that you will need to have a basic understanding of? Select all that apply.	1/1 point
	✓ Industry terms	
	⊘ Correct	
	☐ Industry competitors	
	☐ Industry market performance	
	✓ Industry processes	
	⊘ Correct	
4.	To identify project tasks for your project plan, you review project documentation and research your project online. You have connected with members of your project team and other experts in your organization to examine your list of tasks. You decide you need additional details about a key deliverable. Who should you speak to in order to receive the missing information?	1/1 point
	O Your most senior stakeholder	
	O Your company's Chief Operating Officer	
	One of your high-influence stakeholders	
	O Your company's most senior project manager	

	○ Correct	
5.	You have created an ordered list of tasks for your project plan. What is the next step for identifying milestones?	1/1 point
	O Identify additional tasks for your project plan.	
	Identify points in the task list where you can evaluate work completed so far.	
	O Identify tasks that can be completed most quickly.	
	O Identify alternative orderings for your list of tasks.	
	⊘ Correct	
6.	When identifying a project milestone, which of the following describes what you are seeking?	1/1 point
	O Tasks that signal customer payments are due	
	○ The last task in your project plan	
	Tasks that signal the completion of a project phase	
	O The first task in your project schedule	
	⊘ Correct	
7.	What term refers to a time estimate that accounts for factors like getting approvals, prep work, testing, and so on?	1/1 point
	O Taskflow duration estimate	
	Total duration estimate	
	O Effort estimate	
	Milestone estimate	
	○ Correct	
8.	Which of the measures involved in "three-point" time estimations express how long you hope the task will take, assuming everything goes as	1/1 point
	planned?	
	Optimistic time estimates	
	Most likely time estimates	
	Milestone time estimates	
	O Planning time estimates	
9.	Which of the following circumstances is likely to cause a low confidence rating for a task?	1/1 point
	It is a task that your team has never done before.	
	O It is a task that takes a long time to complete.	
	O It is a task that was completed quickly during past projects.	
	O It is a task that involves only one team member.	
	⊘ Correct	

When you ask questions of your team members without showing empathy, you can leave them feeling too closely observed, controlled, or continuously reminded of the work they have been assigned. What is the term that expresses this negative impact your team members feel in this case?
O Harassment
O Justifying
Micromanaging
O Arguing
⊘ Correct

1/1 point
